

LED Backlit Acrylic Frame, **BDLED**

Extra thin backlit displays. LED lights in the frame are diffused across the clear acrylic face to evenly and consistently back light the entire surface. Meant to be mounted permanently to interior walls with the included standoffs. A clear Plexiglas front panel protects your graphics. Powered by a 110v to 12v wall adapter, with an on/off switch on the back. Case qty: 5.
